

Experience

NUS School of Computing • Interaction Design TA

Singapore / January '22 – Present

Mentored project teams on the end to end design process for their projects weekly, graded and provided feedback to students on their project milestones. Led a Figma tutorial session for 100 students.

Sygnum Bank AG • UI Developer Intern

Singapore / December '21 – Present

Collaborated and negotiated with cross-functional teams in Singapore and Switzerland to build a design system and unify the company's design process. Conducted Figma tutorial sessions for the design team, produced high fidelity UI designs and prototypes for a large-scale banking system, and built scalable UI components using Storybook.

Vivino China • UXUI Designer

Singapore / August '21 – December '21

Carried out user research both on current users of the the world's largest wine app (50m users), as well as on Chinese consumers, to facilitate the group's expansion into the Chinese market. Produced low-fidelity, high-fidelity and prototypes.

Sponsee • UXUI Software Engineer

Singapore / June '21 – December '21

Led product vision and end-to-end design of a crypto social web app. Conducted user research to conceptualize platform branding, design system wireframes, prototypes, visual design, and led a team of developers in developing a social crypto web app.

Rescale Lab • UXUI Software Engineer

Singapore / January '21 – June '21

Conducted user research and usability testing to redesign the SaaS platform, and proposed and spearheaded the company's first design system. Delivered insights to solve challenges in user experience, increasing user conversion by **20%**.
