

Experience

NUS / Teaching Assistant (Interaction Design)

Singapore / January '22 - Present

Mentoring student teams on their project's research, ideation, usability and designs, as well as marking and providing feedback for design deliverables.

Sygnum Bank AG / UI Developer Intern

Singapore / December '21 - Present

Collaborated with PMs and developers in Singapore and Switzerland to build the design system and unify the company's design process. Conducted a crash course on Figma for the entire design team. Produced high fidelity UI designs and prototypes for a large-scale banking system. Built scalable UI components using Storybook.

Vivino China / Contract UXUI Designer

Singapore / August '21 - December '21

Carried out user research both on current users of the Vivino app, as well as on Chinese consumers, to facilitate the group's expansion into the Chinese market. Produced low-fidelity, high-fidelity and prototypes.

Sponsee / UXUI Software Engineer

Singapore / June '21 - December '21

Lead a team of developers in the implementation of a client-facing MERN-stack cryptocurrency-social web app. I conceptualized platform branding, styleguide and UI/UX design, and developed interactive web pages, with a focus on optimizing for a delightful user experience.

Rescale Lab / UXUI Software Engineer

Singapore / January '21 - June '21

Proposed, spearheaded and implemented revamp of the platform UX/UI, including building the company's first styleguide and design-developer handoffs. Designed and developed the full-stack of the SaaS platform.
