EXPERIENCE

Teaching Assistant (Interaction Design) @ NUS
Jan 2022 – Present
> Mentored and conducted consultations for teams
> Marked and provided feedback for design deliverables

UI Developer Intern @ Sygnum Bank AG
Dec 2021 – Present
> Proposed, initiated and built a new design system organisation-wide with a focus on extensibility and reusability, working with product managers and engineers in Singapore and Switzerland
> Produced high fidelity UI designs for a large-scale system. Produced scalable and performant UI components using Storybook.
> Developed bank admin portal interface using React and Nest.js

Project Lead / Full-Stack Developer / Designer @ Sponsee
Jun 2021 – Dec 2021
> Conceptualized platform branding, styleguide and UIUX design.
> Led a team of developers in the coordinated implementation of a client-facing MERN-stack cryptocurrency web app
> Developed interactive web pages, with a persistent focus on optimizing a delightful user experience.

Full-Stack Developer / UXUI Design Intern @ Rescale Lab
Jan 2021 – June 2021
> Design, develop, test, release, and operate the SaaS platform with full SDLC with Agile methods, using Angular, Node.js and MySQL
> Proposed, spearheaded and implemented revamp of the platform UI/UX, including building the company's first design system
> Creating and implementing APIs with Node.js, managing database with MySQL and PHP MyAdmin

Digital Transformation Intern @ McKinsey & Co.
Aug – Dec 2020
> Collaborated in development of digital solutions for McKinsey's Digital Capability Center
> Executed projects alongside McKinsey knowledge experts to showcase the adoption of Industry 4.0 technology solutions for top executives from various industries
